

## Care and Cleaning of Allied Dry Erase Markerboard Tables

**\*\*\*CAUTION\*\*\***

### **DO NOT USE**

Harsh chemicals, abrasive cleaners, sharp writing utensils, or other sharp objects on your markerboard or it will scratch.

### **GENERAL CARE**

To refresh your writing surface to its original luster, simply wipe the entire surface with a soft cloth moistened with warm water or markerboard cleaner, and immediately wipe dry with a clean soft cloth.

### **Additional tips**

- **Use only Dry Erase Markers** on your markerboard table. Do not use permanent markers as they can permanently stain the surface.
  - Do not allow dry erase marker ink to remain on the table for several days without erasing. We recommend that you clean your markerboard weekly to prevent marker color build up.
  - Use a dry erase marker *to color over* areas that are hard to clean or develop ghosting. Then erase the problem area. The solvent in the dry erase ink will frequently clean the soiled area.
  - If permanent marker is used on the markerboard table in error, simply marking over the permanent ink with dry erase ink will often allow the permanent ink to be removed.
  - Use only erasers that are designed for markerboards. Regular erasers do not work well. A clean soft cloth such as a white t-shirt can be used as an alternative.
  - Use only cleaning solutions that are specifically made to clean markerboard. Apply the cleaner to the eraser or soft clean cloth, not directly to the markerboard.
- Here is a list of some popular cleaning products.

- Expo Dry Erase Board Cleaner
- Quartet BoardGear Markerboard Cleaner
- Best Rite Green Erase Cleaner
- Staples Sustainable Earth Multi Whiteboard Cleaner
